Subject: Tilcon Connecticut, Inc./Clean Air Act Reporting Requirement - January 3, 2018

Hello Tom – We represent Tilcon on the above referenced matter. The reporting requirement requires submittal of significant documentation pertaining to compliance with NESHAP, NSPS, and federally enforceable Connecticut State Implementation Plan. We are in the process of gathering and assembling the required information, but request that an extension be provided for submittal. The subject requirement covers twenty-five (25) separate properties with complex operations involving quarrying, aggregate processing, and asphalt and concrete production.

Given the number of properties, complexity of the operations, and breadth of information being requested, we request that the submittal date be extended out an additional 45 days, which corresponds to April 9, 2018.

Please let me know if this is acceptable. If you would like to discuss this matter further, I can be reached at 203.458.7200.

Thank you in advance.
